VOLUME XVI | THE CLEARFIELD PROGRESS, CLEARFIELD, PA., FRIDAY EVENING, OCTOBER 20, 1922. | NUMBER 247

Great Haul Made In Upper End of County By 'Dry' Officers

ALVIN M. OWFLY NEW COMMANDER OF AMERICAN LEGION

New Orleans, La., Oct. 20.—Alvin M. Owfley was today elected national commander of the American Legion. Of the 1030 votes cast, Major Owfley received 574, more than double that of both his leading opponents. The vote was: Owfley 574; Deegan, of New York, 251; Col. Joe Thompson, of Pennsylvania, 205.

A combination of Western and Southern States put Owfley across as against Deegan. Col. Joe's supporters stood by him to the last.

Owfley was a major in the 36th Division. He is a Texan, where he recruited his own company to enter the world war.

Fine Musical Treat For Clearfielders In Visit Of Consistory Choir

What will, in all probability, be one of the finest musical treats that has ever been presented in this city will be when Director Frederick Manson holds up his baton for the opening number by his Consistory Choir which is being brought here by local members of the Williamsport Consistory.

This choir is one of the most wonderful [illegible] organizations in this State. Used as a part of the ritualistic work in the Williamsport Consistory of the A. A. S. R. its fame has gone far beyond the confines of the lodgeroom and is now in great demand all thru the eastern section of the country for such programs as will be rendered at the Trinity church in this city on next Tuesday evening Oct. 24th at 7:45. The entire seating capacity of the church will be thrown open to the public. The choir is brought here by the local members of the Williamsport consistory purely for the purpose of [illegible] Clearfield people this wonderful treat and the coming will be doubly welcome owing to the fact that all expenses are being borne by local members of the fraternity and that the church will be thrown open to everybody without admission charge or collection of any kind. The choir is composed of thirty trained male voices and has been under the directorship of Mr. Manson for over ten years. The program which will be rendered upon the appearance of the choir here follows:

PATRIOTIC NUMBERS
The Messiah of Nations .....Sousa
To Thee, O Country .....Eichberg

PART SONGS
At Dawning ..... Cadman
Memories .....Cadman
Dreaming Alone in the Twilight Moore

Baritone Solo Selected
Mr. W. Clyde Harer

ANTHEMS
Hark, Hark My Soul .....Schelly
Solo by Mr. A. M. Hoagland
Gloria from the Twelfth Mass Mozart

Quartet Selected

DEGREE
Light, Beautiful Light .....Gerrish
Enright's Chorus .....Protheroe

Bass Solo Selected
Mr. Willilam E. Parson

OLD FAVORITES
Love's Old Sweet Song
Loch Lomond
Arranged for Male Voices.

CHORUS
Viking's Song ..Coleridge-Taylor

Following the recital there will be a reception given to Director Manson and his Choir at the Fraternity Club in the Keystone Building to which all members of the Masonic fraternity and their ladies in this section have been invited.

Mrs. Carrie McGaughey, Mrs. A. M. Liveright and Miss Beulah McCardel attended the luncheon giv-

AMERICAN LEGION BAND MEMBERS

Please report at the room promptly tonight at 7:30 for the purpose of playing at the Democratic Rally.

SWOOPE MAKES A GREAT SPEECH AT BRADFORD MEET

Tells League of Women Voters That New Legislation Must Protect Child Labor.

OPPOSES LEAGUE

(From the Bradford Star.)

William I. Swoope, Republican candidate for Congress, addressed the local branch of the League of Women Voters at the Board of Commerce rooms last evening. The large sized crowd of women assembled to hear the candidate discuss the issues of the coming campaign. Mr. Swoope is an excellent speaker and in an entertaining manner explained the outstanding features of the Republican platform. He reaffirmed his adherence to the amendment to the federal constitution giving Congress the power to regulate child labor.

He said in part:

Te recent decision of the Supreme Court of the United States declaring the act of Congress regulating child labor unconstitutional has brought to the attention of all good citizens the immediate necessity of adopting a twentieth amendment to the Constitution to authorize Congress to regulate this matter. The Republican party declared in its pre-election platform that "if the present law be found unconstitutional or ineffective, we shall seek other means to enable Congress to prevent the evils of child labor." It is an industrial impossibility for any one State, or any group of States, to maintain high industrial standards in direct and open competition with other States that have no such high standards. Therefore, there is a necessity for a Federal law.

One million children from the ages of ten to fifteen yeaers, are now at work in the United States.

Statistical figures are cold, uninteresting things, so let us, says a well-known educator, put the matter in another way—

"One million underprivileged children, destined to grow to be underprivileged men and women, to recruit the ranks of the half-witted, the gunmen, the incompetent and the criminal.

One million voters less capable of exercising the great function of the ballot because of poor equipment for reasoning power and decision.

One million dwarfed intellects to be the easy prey of prejudice, class consciousness and hatreds. Undersized minds that will fatten the purses of the crafty and the conscienceless.

One million prospects for the I. W. W.'s, the Bolsheviki, and all the other exponents of half-baked theories of government.

One million people whose darkened minds will inevitably pull down the standard of art, music, drama, and life in all its ramifications.

One million children whose pitiable plight shames the boasted wisdom and statesmanship of the United States of America.

One million little folk, at heart innocent of all these and other dire portents for their country, with a real and just grievance against the one hundred million who permit this [illegible] folly of child labor to

(Continued on Page Seven)

BLAIN CITY, COALPORT, MAHAFFEY AND GREENWOOD TOWNSHIP GIVE UP IMMENSE QUANTITIES OF "HOOTCH"

Curry Run Distillery Most Complete Plant Officers of Long Experience Ever Saw; Was In Abandoned Farmhouse 2 Miles From Road.

PROTECTED BY RIFLE IN "CROW'S NEST"

About a half dozen people in the Blaine City, Coalport and Mahaffey regions will bear testimony today that prohibition laws are being enforced, that "Sky Pilot" Davis has a two-fisted enforcement crew who can smell hootch for miles; and those thirsty individuals who depended on E. A. Graham of Mahaffey, George Spangle of Blaine City, Frank Malco and Mrs. Theophilas Cenaski of the same place and Sero Bankio of Coalport are going to be deprived of a source of supply for a long time to come.

Judging from the haul made by an enforcement crew under Group Head O. R. Stiffler and Lieut. C. T. Sprague yesterday in a whirlwind tour of the upper end of the county the aforesaid individuals must have had a monopoly on the moonshine and high powered wine trade in that vicinity as the capacity of the stills confiscated and the stocks on hand and in process of manufacture would make the Overholt Distillery a mere piker. Here is the list of the goods destroyed and confiscated in a short space of six hours:

2 25-gal. stills.
1 15-gal. still.
160 gallons mash.
8 bbl. wine.
4 tons California grapes.
190 bottles Jamaica ginger.
1 10-gal. keg moonshine.
2 1-gal. jugs moonshine.
34 pints moonshine.
984 lbs. brown sugar.
288 empty pints.
3 5-gal. crocks.
1 38-55 Marlin rifle, loaded.
1 bottle-capping machine.
25 gal. cherry mash.
1 bbl. fermented cider.

The First Haul.

Now wouldn't that make you thirsty? It's too late now but here is where you might have gotten it. At least this is what the dry squad found when they swooped down on Blaine City yesterday morning about the time trade was getting good. The first place to be visited was a house occupied by Mrs. Theophilas Cenaski, who had Frank Malco as a distiller and dispenser. A beautiful shiny 25-gallon capacity still had just been loaded and was in operation with Malco proudly looking on. Thirty-five gallons of mash were ready for reloading. The lady and her man Friday were marched to 'Squise Askew at Blaine City where they were held under $1,000 bail to appear at December court.

An Old-Fashioned Hotel.

From the Malco distillery the crew visited the Blaine City Hotel conducted by George Spangle. Here the raiders found a ten-gallon keg of moonshine, a quart and a pint. Spangle and his clerk, Thos. M. Cavey, were glad to give bail in similar amounts to get out of a ride to Sheriff Lowell's apartments at Clearfield. Spangle was ill in bed and told the raiders in not too friendly a manner that he had been tipped off from the town the raiders started from that they were coming but did not have time to hide his stock.

On To Coalport.

Moving down to the town of Coalport the "hootch hound" in the pilot car pointed towards the domicile of one, Sero Bankio, whose praise and name are sung far and wide as a wine maker and vendor. Mr. Bankio had eight barrels of wine already made up, three kinds of it, so that he would be able to cater to all classes of trade, and as though anticipating a great holiday trade he had four tons of California grapes in an adjoining room, going through his fruit press. An invoice found told the story of the extent of his operations. Bankio likewise will be down to see Judge Bell in December. The stocks were put under seal for later disposition.

A Prize Find.

It was not, however, until the party reached Mahaffey that things began to get interesting. Possessing a search warrant for the restaurant of E. A. Graham, which is directly back of the N. Y. C. depot, the squad entered both front and rear doors and made a thorough search. In the stock room upstairs 34 pints, 2 one-gallon jugs and 190 bottles of Jamaica ginger gave mute evidence of the source of supply for thirsty travellers. The law-abiding residents of Mahaffey upon learning that a raiding party was in town quickly assured the offirers their visit was appreciated and volunteered a great deal of information which led to developments which uncovered the plant from which Graham stocked his house and which surely had the capacity to keep all of Chest Creek moist through the longest drought. Graham was taken before 'Squire McQuown of Mahaffey, where for $1,000 bail posted he was temporarily released.

Departing from Mahaffey, the party headed down the river for Clearfied, satisfied that a good day's work had been done, but at a point near Curry Run the "hootch hound" sniffed and barked, then sprang from the rapid going car. It is the policy of the enforcement officers never to overlook a scent, so the cars were headed up the old Lee road for a distance of a couple miles to what is known as the old Lee farm in Greenwood township. Here the officers found an old four-room farm house, abandoned as far as agricultural pursuits are concerned, but a beehive of activity for distilling purposes. This house is located in a hollow and is obscured from the view of all mankind by reason of its location and the wooded lands surrounding it. A nice stream of pure spring water for use in manufacturing ran right alongside the house. Indeed it was a perfect site. The farm now is the property of E. A. Graham, the Mahaffey restaurant man, who was re-arrested and admitted his part in the violations.

In one room was a 25-gallon and a 15-gallon still. In another there were 125 gallons of grain mash, a 25-gallon keg of cherry mash. In still another, the packing room, was

(Continued on Page 4).

ARREST IS AGAIN PROMISED IN HALL-MILLS MURDER CASE

New Brunswick, N. J., Oct. 20.—Hall-Mills murder mystery has been solved. The murderer is virtually arrested and has been under constant surveillance for several days.

County Prosecutor Strickler would not confirm the report that emanated from the court house here but there is less feverish activity around the Court House today than there has been since the finding of the bodies and the search for the murderer began.

Both Prosecutor Strickler's and Prosecutor Beekman's attitude was said to bear out the information and the apparent sureness of the county officials and the state police further bore out the probability that an arrest was but a matter of hours.

New Brunswick, Oct. 20.—Prosecutors Beekman and Stickler are apparently at loggerheads over the latest developments. Beekman is urging Strickler to make an arrest but Strickler does not believe the time opportune for taking the suspect into custody.

REPUBLICAN PARTY CHAIRMEN MAKE MANY CHANGES IN GOVERNING RULES

Republican precinct, ward, township, borough and city chairmen constituting the Republican organization of Clearfield county, met in executive session last evening at the Dimeling hotel at which time a banquet was enjoyed and epoch-making changes were made in the party rules. A full report of the proceedings will appear in tomorrow's Progress.

ATTORNEY UREY AN ABLE EXPONENT OF TAXING PROBLEMS

Borough Solicitor John M. Urey was a guest of the Clearfield Rotary Club at its regular meeting at the Hotel Jordan last evening and after the dinner gave the assembled Rotarians a highly interesting talk on "Tax Assessment Equalization." Mr. Urey is an authority on taxation and by reason of the position which he has held in the borough government for the past ten or twelve years is as familiar with the local situation, with its manifold inequalities, as any man in the town. His remarks were not only interesting but instructive as well and gave his hearers new ideas on the problem which concerns us all and which an effort will be made to solve at the coming session of the Pennsylvania legislature by entirely changing the manner of tax assessments.

Miss Jean Harris sang a couple of very enjoyable solos during the meeting.

Charles A. Steele, of Franklin, Pa. a guest of P. T. Davis favored the Rotarians with a brief little talk and pleasing recitation.

BALDWIN WORKS AT PHILADELPHIA HAS GREAT PROSPERITY

Philadelphia, Pa., Oct. 20. (U. P.)—The Baldwin Locomotive works is having the greatest prosperity since the slump began in 1920.

There are now 12,000 men at work, three eight-hour shifts, six days a week, and the force will soon be increased to 18,000 men, it is announced.

This shows the general trend of business, for railways do not place large orders for locomotives when times are very dull. Many of the roads who have placed big orders with the Baldwin people are demanding that their engines be rushed in anticipation of new business at once.

Besides large domestic orders from Pennsylvania, Erie, Baltimore and Ohio, Chicago, Milwaukee and St. Paul and others, the Baldwin has orders from foreign roads and governments for more than 50 locomotives.

The largest engine ever made at the Baldwin works was recently turned over to the Erie. It had sixteen driving wheels each 63 inches in diameter, developed tractive force of 160,000 pounds and weighed 860,350 pounds.

MOTHER'S FUND IS GREAT HELP TO OVER 2,000 STATE WOMEN

Scranton, Pa., Oct. 20.—(U. P.)—The Mothers' Assistance Fund is at present caring for 2,462 families in Pennsylvania, including 9,000 children, according to Miss Mary F. Bogue, supervisor of the fund in this state.

Rebekkahs Celebrate With Hallowe'en Party In Odd Fellows Hall

A particularly enjoyable hallowe'en party was given by the Daughters of Rebekkah in the rooms of Clearfield Lodge of Odd Fellows last evening. The two hundred or more participants were suitably and picturesquely masked and with the commodious social rooms darkened and tastefully decorated with eerie looking old witches and other hallow e'en decorations made up a scene impressively and singularly beautiful.

When the proper time arrived Miss Marion Rook took charge as Chairman and capably directed a highly pleasing program.

One of the Chief features of the program was the fancy whistling of the Clyde Brothers, DuBois artists, one of whom also favored the assemblage with several side-splitting Italian dialect stories.

Mrs. Cal C. Johnson added anew to her reputation as an elocutionist, vocalist and all-around entertainer by her recital of "A Dutchman's Answer," which she followed by singing that old-time but ever popular song entitled "Oh, My Little Darling."

Miss Kathleen Tozier also sang a very pretty solo, while Miss Anna Way, who accompanied the singers also rendered a pleasing piano solo.

Delectable refreshments added "the fillin," necessary to a complete program and brought to an end a perfect evening.

CLAIMS WIFE GAVE BIRTH TO TWINS, THEN KILLED THEM

Hammond, Ind., Oct. 19.—Frank McNally, middle aged factory worker who accuses his wife of murdering twin babies born to her, asserted at the preliminary hearing today that Mrs. McNally took the children to a hospital in Chicago last January returned with two dolls which she substituted.

Mrs. McNally, who claims that the twins never were born, and that tricked her husband by using dummies to satisfy him, was unperturbed by her husbands' testimony.

Attorneys for the defense objected to his testimony as soon as he was placed on the stand. After long arguments Judge Cleveland ruled that McNally might tell of events following the time he says the babies were born, but will not be allowed to testify to events preceding that event.

Miss Catherine Griffith, 17 year old daughter of the nurse who attended Mrs. McNally, was an important witness today. She said she learned that Mrs. McNally was to have become a mother in the summer of 1921 Pictures, she said she had taken of Mrs. McNally at the beach last summer, were demanded by attorneys for the defense but were refused.

She asserted that after the time McNally said the twins were born she saw he babies in bed alixe and kicking and also saw one of the babies nursing Later she said she carried one of the babies on the street, but would not swear that it was alive.

Merrit Metz, a real estate man, said he had seen Mrs. McNally early last December and she was approaching motherhood. Mrs. Anna Hartman, a neighbor, also testified that she had seen Mrs. McNally in December and she was soon to become a mother.

It was expected that when McNally concludes his testimony, the midwiffe who McNally said attended his wife, will be summoned.

Hammond, Ind., Oct. 19.—Apparently enjoying humorous aspects of the proceedings as much as spectators who crowded the courtroom, Mrs Hazel McNally, on trial charged with

CLEARFIELD, ELK AND CAMERON ROAD BOOSTERS READY

Permanent Organization Made; Legislation to Get Highway Prepared and Fight Is On.

IS SHORTER ROUTE

The meeting for permanent organization of the Clearfield-Elk-Cameron Improved Road Association was held at St. Mary's, Elk county yesterday and the organization of business men from the counties named which has for its object the establishing of an improved road between Clearfield and Emporium, was finally and permanently established.

The meeting which was held in the parlors of the St. Mary's Elk Club was attended by two score or more of those interested in this route, which means so much to the northern end of the State, in that it will give a short cut outlet to the east to a section practically cut off from central and eastern Pennsylvania, except they travel a long and roundabout course to reach those sections..

The meeting was called to order by President B. C. Mulhearn and after the preliminaries had been disposed of Hon. Josiah Howard, of Emporium, established the permanency of the organization by moving that an Executive Committee be named consisting of the general chairman and the Chairmen and Secretaries of each of thethree counties in the organization.

The county chairmen then named the six members of their organizations, which they had been empowered to choose to make up the different county organizations. Chairmman A. E. Leitzinger of Clearfield County, announced that the following would make up the committee from this county: A. E. Leizinger, chairman; L. C. Norris, Secreary; John C. Forsyth, Charles T. Kurtz, A. H. Woodward, A. D. Bigler and Dr. Frantz.

Chairman A. H. Woodward of the Committee appointed to draft suitable legislation covering the project, presented the following Act of Assembly, providing for the proposed route and which was adopted and will be introduced into the coming legislature:

A SUPPLEMENT

To an act entitled, "An Act establishing certain public roads as State Highways, and providing for their construction and maintenance at the expense of the Commonwealth," approved the twenty-second day of July one thousand nine hundred and thirteen, by adding thereto an additional route to be known as route three hundred and seventy-five, to connect the county seats of Clearfield and Cameron Counties.

Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania in

ROOSTER'S CROWING SHOWED WAY OUT OF DARK DISMAL SWAMP

Stroudsburg, Pa., Oct. 20. (U. P.)—William Warner owes his life to a rooster that crowed.

Warner recently became lost in a cranberry swamp near Tannersville. After wandering for hours he was caught in the boggy land up to his waist.

Fighting for hours to release himself he finally succeeded in dragging himself to firm land but was lost and afraid to move. A rooster crowed. Warner followed the sound until he reached a farmhouse and was given medical attention.

Grieving Cow Adopts Eight Lambs.

The maternal affection of a cow at the Morton Sheep company's ranch, near Douglas, Wyo., has been satisfied by the adoption of eight motherless lambs. The cow grieved when she lost her calf, but her new family appears to please her greatly.

PAIN GONE! RUB SORE, RHEUMATIC ACHING JOINTS

Stop "dosing" rheumatism.

It's pain only. St. Jacobs Oil will stop any pain, and not one rheumatism case in fifty requires internal treatment. Rub soothing, penetrating St. Jacobs Oil right on the tender spot, and by the time you say Jack Robinson—out comes the rheumatic pain and distress. St. Jacobs Oil is a harmless rheumatism liniment which never disappoints, and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints muscles and bones; stops sciatica, lumbago, backache and neuralgia.

Limber up! Get a small trial bottle of old time, honest St. Jacobs Oil from any drug store, and in a moment you'll be free from pains, aches and stiffness. Don't suffer. Rub rheumatism away.

BETTER TOOTH PASTE MAG-LAC

Stronger in medicinal properties it is greater in proplylatic benefits. Free from grit and still worth a good scrubbing quality. Cleverly flavored so that it tastes well.

McCARTY'S SUNDAY DELIVERIES

The office at the plant will be open until 9 P. M. every Saturday evening and on Sundays from 9 to 10 in the morning for the booking of Sunday dinner ice cream.

No orders will be taken after 10 A. M. Sunday for delivery in time for dinner.

If You Serve McCarty's Ice Cream, You Serve Something Extra Fine.

McCARTY'S

CLAIMS WIFE GAVE

(Continued From Page One)

infanticide, waited today for the prosecution to present its star witness, her husband and accuser, who saw the twins she disposed of last spring were actual babies and not dolls, as she claims.

Eleven witnesses testified yesterday, 10 that the twins were dolls and one that they lived and breathed. Mrs. McNally listened with seeming levity and unconcern to their testimony as to how she carefully guarded "the twins" from the prying of curious relatives and neighbors. She frequently joined in the laughter which the testimony brought from the crowded courtroom.

The defense indicated its intention to put Mrs. McNally on the stand to repeat her version—a story of a conspiracy between herself and her husband to work a maternity hoax so that McNally's ambition to be known as a father might be appeased. According to Mrs. McNally an operation two years previous to her marriage rendered her incapable of child birth.

All witnesses said that Mrs. McNally kept the faces of the twins covered up.

No trace of the missing twins whether dolls or babies, has been found. Mrs. McNally said she destroyed them last April, telling the inquisitive that she had sent them to Chicago.

300 ARE BURIED IN POTTERS FIELD OF PHILA. EACH YEAR

Philadelphia, Pa., Oct. 20.—(U. P.)—More than 300 unidentified and unclaimed bodies are buried in Potter's field here each year, Joseph Shay, Superintendent of the cities burial ground, states.

The bodies are kept in the cemetery for two years and then if no one claims them, they are exhumed and cremated, Shay said.

Photographs of each body buried are kept and it is not uncommon to exhume a body several times a year for identification, only to find that the persons were deceived by the picture. Most efforts to identify the bodies are due to the desire to collect insurance money, he said. The number of unclaimed bodies each year are about equally divided between the sexes the records show.

BEAVERS CUT OFF WATER SUPPLY FROM HIS GRIST MILL

Bloomsburg, Pa., Oct. 20.—(U. P.) Unable to operate his grist mill because his water supply was short, Clinton Cole investigated the upper section of West Creek.

Twenty miles up the little stream of water a colony of beavers were damming up the creek. In an effort to keep a sufficient depth of water in the mill dam to suit their fancy they closed off the water leading to the mill race.

INDIANS TO BATTLE FOR LANDS AROUND OLD N. Y. RESERVE

Oneida, N. Y., Oct. 20.—(United Press)—Legal battles will be begun shortly to recover for the "Six Nations" of Indians more than 6,000,000 acres of land in the heart of New York state valued at more than $2,000,000,000.

Oneida Indians at a meeting here appointed a committee of 22 of their number to raise the money needed for the fight and for further investigation of claims. Nelson Metoxea is chairman and Mrs. Laura Cornelia Kellogg, secretary. The committee will work with those appointed from other tribes.

Mrs. Kellogg and Amos Baird represented the Oneidas in an investigation conducted in the east. They claimed at the meeting that if the land is recovered, it will be divided among approximately 50,000 persons descendants of the "Six Nations."

The claim is based on the treaty of 1784 in which the United States government ceded 6,000,000 acres of land to the Six Nations. There is nothing in the treaty, however, preventing Indians from selling the land. In a short time much of it had been sold to the state.

Indians moved west and north, some to Canada, others to Wisconsin and Oklahoma.

In 1794 the government amended the treaty by a clause which stated it was the original purpose of the government to provide that none of the land ceded in the treaty of 1784 could be sold except by the Six Nations as a unit. Indians therefore are attempting to recover the land alleged to have been illegally sold to New York State.

The Indians are being assisted in their fight by E. A. Everett, chairman of the New York state Indian commission. The fight will be carried to the New York state and Federal government.

FEW FOLKS HAVE GRAY HAIR NOW

Well-Known local druggist says everybody is using old-time recipe of Sage Tea and Sulphur

Hair that loses its color and lustre or when it fades, turns gray, dull and lifeless, is caused by a lack of Sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulpuhr Compound," which darkens the hair so naturally and evenly that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulpuhr Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of aboundance.

ODDS AND ENDS AND THINGS

By J. D. C.

A referendum on Prohibition, to record the opinions of at least 10,000,000 American citizens throughout the country, and if possible, twice that number, will be undertaken by the National Liberal Alliance and completed in four months. A beginning has been made, it became known for votes of 3,000,000 have already been recorded.

The votes in hand, obtained mostly in New York and in the New England States, stand ten to one in favor of a modification of the Volstead Act, according to Miss Helen L. Baughan, director of the Women's Division of the Alliance, who has opened headquarters in the Hotel Astor and who began taking votes Tuesday last. That ratio, incidentally, is similar to one obtained from nearly 100,000 voters in New York a year ago last July—93,720 for modification and 1,978 against.

Miss Baughan, a newspaper woman from Providence, will take votes in New York until election day, with aid of 500 women assistants to be recruited during the next two days. Ballot boxes will be placed all over the city.

To Escape Knife of Divorce.

A chap before marriage does a lot of spooning, but after marriage it's a case of fork over.—Boston Transcript

First Patent for Plow.

The first patent for a plow is said to have been obtained by Joseph Foljambe in 1730. His invention was closely followed by other plow makers, and he struck the same practical idea that has been so elaborated in the soil-turning instrument of today.

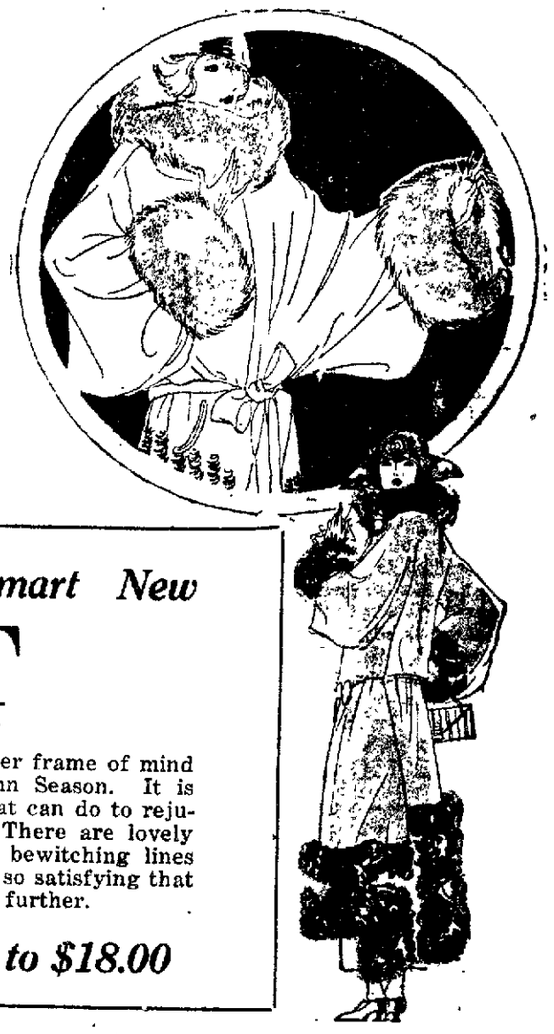
Fall Ready-to-Wear Shows Countless New Style Movements

Countless new movements have been inaugurated in styles for women, and each has proved more acceptable than the last. There is still further departure from the old paths in respect to price, perhaps the most acceptable of all. Beautiful styles for every age—all at prices lower than those obtaining for garments of the same quality a year ago—are indeed the bearers of good tidings to the modern woman, and Leitzinger's take pleasure in furthering the new arrangement with a large and unusually comprehensive array of Frocks, Coats, Suits, Hats, Furs and other apparel for women.



First of All Is a Smart New

HAT

If you want to be in the proper frame of mind during this delightful Autumn Season. It is surprising what one pretty Hat can do to rejuvenate an entire wardrobe. There are lovely new Hats on display her of bewitching lines and ravishing color, and style so satisfying that few women will care to look further.

Priced from $2.50 to $18.00

-:- SNUG KNIT UNDERWEAR -:-

Combines Quality With Comfort and Attractiveness

The question of Knit Underwear in a heavier weight than summer has demanded, is all-important, now that brisk fall weather is here. These early fall days in the Underwear Section are splendid ones to examine and purchase the new knit undergarments. There are many interesting new details of trimming; some new weights. As you know, we carry only those well-known and thoroughly tested makes that stand for quality—the **Munsingwear** and **Athena** Brands, head the list of our nationally known makes of Women's and Children's Underwear.

Lion Brand Hardy-Hide Hunting Boots Will Protect Hunters' Feet

CLEARFIELD, ELK

(Continued From Page One.)

Legislature assembled and it is hereby enacted by authority of same:

ection 1. That the following public road or highway leading from Clearfield, the county seat of Clearfield County to Emporium, the county seat of Cameron County be and the same is hereby adopted as a State Highway and shall hereafter be constructed and maintained at the sole expense of the Commonwealth, under the provisions of present or future laws governing main State Highways; that is to say:

Route Three Hundred and Seventy Five—A certain public road commencing at the Borough line of Clearfield, at a point near the Clearfield Hospital, thence by way of Kennedy Park and the State Forestry Nursery, to Penfield; thence to a point on the dividing line between Clearfield and Elk Counties, near the village of Tyler, thence by way of Force, and Weedville and Byrnedale to St. Mary's and thence by State Highway Route No. ninety-nine to Emporium.

Section 2. The cost and expense of the maintenance, construction, reconstruction and improvement of the highway herein described shall be paid out of any moneys appropriated to the State Highway Department for the maintenance, construction, reconstruction or improvement of State Highways.

The Chairman was then authorized to appoint a Legislative committee of three members from each county, which committee will be expected to assist in having the proposed law enacted by the Legislature. Each County Chairman will name the three men from his county and they will be appointed by the general chairman when the names are submitted to him.

A Committee on Publicity to be made up of the editors of all the news papers in the three counties was then named on motion of Mayor Thompson of St. Mary's.

The matter of a name for the proposed route was then discussed at length and it was decided to ask for suggestions from the people of each of the three counties, a selection to be made from the names presented by the Executive Committee. Clearfield county people desiring to compete in this naming should submit the name they would suggest to Secretry L. C. Norris, Clearfield.

The distances to the New York State line by the proposed short route are:

Clearfield to St. Mary's 36.5 miles
St. Marys to Emporium 22 miles.
Emporium to Port Alleganey 25 miles (via Sizerville and Keating Summit)
Port Alleganey to Eldred 19 miles (via Larrabee.)

Those attending the meeting from Clearfield were: A. E. Leitzinger, L. C. Norris, A. H. Woodward, A. D. Biggler, J. F. Leitzinger, William Leitzinger, Charles Waple and J. D. Connelly.

Blain City, Coalport

(Continued From Page One.)

a patent bottle capper, 288 empty pints, 3 5-gallon crocks, 1 barrel fermented cider, over 900 pounds of sugar. The other room was the living quarter with cot and chair where the hard-working shiner could rest after his labors.

Meant Business.

Through the roof projected a trap door and a ladder. Curiosity prompted one of the officers to crawl the ladder and imagine his surprise when at the top it landed him in a comfortably constructed "crow's nest" built in the top of a giant oak well covered with foliage in such a manner that it was not visible from any point on the ground at or far away from the house.

A rustic seat was provided, also footrests to keep the weary outlook from becoming legweary. Across the seat was a 38-55 Marlin rifle loaded with six death-dealing shells with several dozen cartridges alongside, thus providing for a long seige against law and order if the distillers found it necessary. The officers made short work of the whole plant and today it has the appearance of a Hun destroyed French chateau.

Yesterday's coup was the work of Group Head O. R. Stiffler and Lieutenant C. T. Sprague and their coworkers from the Punxy office, assisted by some local men drawn from surrounding towns. Both of the gentlemen, as the results show, are able and gentlemanly officials and the good people of the Mahaffey region were very favorably impressed by their efficient and unobtrusive methods. Mr. Stiffler stated, however, that in all his experience, even in the mountain fastnesses of Kentucky, he had never seen so complete a plant as the Curry Run distillery.

Squire Frisked.

The raids were not without the excitement and humor attendant to such happenings. Large crowds of people gathered at each place, while the thirsty shed tears and admirers of the coppersmith's art held their breath as stills were ruthlessly bent and broken. A touch of humor was added at Mahaffey when Squire James Brett sauntered into the restaurant not knowing Uncle Sam was in charge. One of Uncle's men was behind the bar. He assumed the role of clerk and genially asked the squire what he wanted. The squire replied "What yer got?" After countering back and forth the squire apparently thought it time to leave but was detained in the name of the law and also subjected to the humiliation of having his hunting coat searched. An almost empty half pint was found in the game compartment. The new clerk did not make a refill but what he did do was to give the squire a very uncomfortable five minute lecture on his conduct as a minion of the law.

ADDITIONAL GAME PROTECTORS ARE ADDED TO THE FORCE

Harrisburg, Pa., Oct. 20.—(U. P.)—Many assistant game protectors have been put on to curb the activities of these furtive hunters who try to skim the cream of the fall hunting by beginning before the opening of the season, Secretary Seth Gordon of the Game Commission said today.

Every effort will be made to prevent pre-season hunting and to apprehend those guilty of "jumping the gun," Gordon declared. Numerous extra assistants have been commissioned for temporary duty and already many law breakers have been caught.

Arrested

[illegible]

If—

"Yes," said the confirmed player with tears in his eyes, "if he hadn't got in the way I'd have made that putt in one less than bogie."—Judge.

Have To Get Up Nights For Bladder Relief?

Try Simple Method This Dayton Man Reports Relieved Him Quickly.

Mr. Wm. P. Carpenter, 826 E. Second St., says in his own home paper, the Dayton Daily News: "My kidneys were so weak I had to get up nearly every hour in the night. I felt tired and nervous because the rest which should come to me was broken up so much. After taking a few Lithiated Buchu (Keller formula) tablets my bladder became perfectly normal. They also relieved a very severe backache. I have no more pleasure than to tell my friends what these little tablets did."

Lithiated Buchu (Keller formula) for weak kidneys or bladder troubles, rheumatism, gravel, etc., can be had from any druggist in the world. The tablets cost 75c a box. This price makes it possible to obtain the benefit of only several Lithiated doses, which are usually sufficient for relief. Very likely you have never taken anything like this remedy. Try a few doses for backache, scalding, scanty or high colored urine, and frequent desire at night.

You can get Lithiated Buchu (Keller formula) at Stewart's Drug Store and drug stores everywhere, or write The Keller Laboratory, Mechanicsburg, O.

THREE TRAINMEN LOSE LIVES WHEN RAIL IS BROKEN

Williamsport, Pa., Oct. 20.—Three trainmen lost their lives in the wreck of the fast passenger train No. 12 near here at midnight last night. Five injured were brought here to a local hospital. There were no passengers among the casualty list.

The dead are:

Chas. Smudge, engineer; W. H. Smith, baggageman and R. S. Smith, mail clerk.

The train, one of the crack trains of the Wabash, was behind time, bound from St. Louis to New York when it ran into a broken rail. Railroad officials claimed that the track had been tampered with.

Following the wreck in which seven coaches went into the ditch, fire broke out among the wreckage hindering the work of rescue parties which were soon on the scene.

When You Sponge Clothes

The troublesome stains which sometimes appear on cloth after being sponged with gasoline or naphtha can be avoided by adding a couple of teaspoonfuls of table salt to the cleaning fluid.

Her Hands Full.

It keeps the wife of a self made man busy mending alterations.—Boston Transcript.

A Successful Man

Among the notable professional men of this country who achieved great success along strictly legitimate lines was Dr. R. V. Pierce. Devoting his attention to the specialty of women's diseases, he became a recognized authority in that time.

Over [illegible] years ago the proved physician, in which work his Prescription [illegible] never been equalled for the weaknesses of women, Dr. Pierce, Buffalo, N. Y., long since found what is naturally known as his discovery. He learned it all thru treating the ands of cases. The result of his studies was a medicine called Doctor Pierce's Favorite Prescription. This medicine is made of vegetable growths that nature freely intended for backache, headache, swelling, pain, and for the many ailments common to women, in all ages of life. Women who take this strengthening tonic now at home, Dr. Pierce's Favorite Prescription, they are getting a tonic women's tonic so good that druggists everywhere sell it in both tablet and liquid form.

Send 10c to Dr. Pierce's Invalids Hotel in Buffalo, N. Y., for trial pkg. Write for free medical advice.

MARYSVILLE MAN MAKES BRUTAL TRY TO KILL HIS BRIDE

Harrisburg, Pa., Oct. 20.—Wolfgang Rupley, aged 18, a resident of Marysville, near here, early today cut and lashed his wife's face and body with a knife then shot her with a shot gun. He ran from the house pursued by irate neighbors and a posse of police, state troopers and armed citizens took up the chase and within an hour captured the man. His wife, who is only seventeen, is not expected to live. The couple have been married only one month.

Too Tame to Hunt.

In Scituate, a fox which had been chased as game for the sport proved too tame. It climbed in an automobile, and was released again but ran up to one of the hunters who took pity on it and picked it up.—Boston Globe.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

Mrs. O. C. Livingston, of Clearfield, is visiting in the home of Mr. and Mrs. James C. Wright on South Filbert street.

Mrs. William Robinson is confined to her home by illness.

A very solemn and important ceremony was performed at the home of Mr. and Mrs. S. C. Russell yesterday afternoon when the Ganoe twins, Ruth and Rebecca, were christened. Mrs. Ganoe will go South shortly to remain for the winter.

The entertainment committee of the American Legion Auxiliary invites all members of the Auxiliary and those who are eligible for membership to the Legion rooms on Tuesday evening, October 24th, 1922, at 8 o'clock to attend a social evening. A good attendance should be present, as the ladies who comprise that organization certainly know how to entertain and make it pleasant for everybody.

Farmers hereabouts who made it a point to raise a large crop of potatoes are now disposing of the tubers at 75 cents per bushel. Many are anxious to dispose of their entire crop, as it is of their candid belief that potatoes this year will not prove good keepsrs through the winter or until the spring months. Buyers are getting their winter's supply and taking a chance on keeping them until used.

Parties who have been out on the mountains this week putting hunting camps in shape for the winter and the deer season, report that these animals are very plentifful and tame. A group of more than half a dozen approached within fifty yeards when one man was at work and gazed at him for almost ten minutes and then walked away as unconcerned as though they had not noticed his presence. Groups of deer from four to seven are seen frequently pasturing in fields and old orchards near the Greenwood camp. But wait until December when the season opens and a half thousand guns are belching fire and smoke in the mountains, where then will they be.

Jemmie Sheridan's smart little delivery truck was put out of commission yesterday by meeting with an accident.

MILLIONAIRE'S SON SHUNS MOTOR CARS AND LEISURE LIFE

Chicago, Oct. 19. (United Press.)—A chip off the old block is Joseph Block, who is going to follow his father's footsteps.

Block, 22, the son of L. E. Block, millionaire chairman of the board of directors of the Inland Steel Company, recently graduated from Cornell University.

He is now learning the steel business from the ground up.

For a month he was a member of the "puddlers gang" at the Inland Steel Company mill, at Chicago Heights. The "puddlers," by the way, have the hottest job in the mill. Stripped to the waist they direct the course of the huge billets of molten metal which come from the furnaces.

Block isn't going into the thing in a half-hearted way, either. He eats, lives and sleeps with his companions at the mill. He shares a room with a brother worker, carries a dinner pail and joins in the evening and morning march of the workers. He earns 355 cents an hour. Block is a favorite among the burly, muscular crew.

"The work is hard. To learn the business one must start at the bottom. You can't expect knowledge to be handed to you on a platter," Block said.

Block refused his parents' wish that he live at home and motor to and from the job.

"If I want to go home I'll use the street cars," he said.

STATE AND C. H. S. TO CLASH AFTER A FIVE YEAR PERIOD

By DICK LEIPOLD

Tomorrow afternoon, when Clearfield High and State College line up on the local field, it will mark the renewal of athletic relations after a lapse of five years. In the past the State schoolboys were one of the local institution's greatest rivals, every game between the two schools being close and chock full of thrills. This season the Centre county students will invade Clearfield with an aggregation reported to be well versed in all departments of the game.

Last Saturday Penn State High rambled roughly over the Cooper township eleven 51 to 0. A repertoire of trick plays and strong line play were features for the winners.

Hugo Bezdek, famous State College coach, has a son playing on the line of the school boys' machine. It is said that the high school outfit receives many valuable tips from the collegian tutors, who take an interest in the prep students' efforts.

C. H. S. Team Ready for Fray.

The Red and Black squad rounded out their practice last evening by running through an hour's signal drill. A chalk talk or "skull drill" was also given to the varsity players by Coaches Reed and Flegal.

Flegal also gave the first string men formation drill in the high school gym Thursday evening.

The players on the sick list are all in good shape, except Ganoe the big guard. Capt. Witherow voiced the sentiment of the entire team when, after finishing practice, he stated that every player on C. H. S.'s squad expected to give his best in Saturday's clash with the college town outfit, in order to show the students and townspeople what Clearfield High can do against a school of her own class.

"Pep" Meeting Tonight.

This evening at 8 o'clock there will be a "pep" meeting at the high school. Speeches, songs and school yells will be given by the students and others. Everyone is invited.

Some unusually interesting games will be staged tomorrow between the schools named below. Four of the teams appear on C. H. S's. schedule.

Huntingdon at Johnstown.
Altoona at Lock Haven.
Curwensville at Reynoldsville.
Emporium at DuBois.

LOOKOUT THERE, GIRLS!

There is only one thing as sure as taxes, and no claim as good for collection. Women can no longer hide behind an old law that places them in the class of imbeciles and cannot be jailed for debt. The State attorney general has ruled that a tax collector can levy on the clothing, jewelry, or any other personal property of a woman, and sell it for taxes. A woman without real estate would have but a few dollars taxes to pay and few of them would not have sufficient personal property to pay the tax and cost. Women who own real estate have abundance of security for their tax.—Centre Reporter.

SWOOPE MAKES

(Continued From Page One.)

continue."

If something cannot be done for these children, whose youth and strength are being drained away, the results in future years will be sad indeed for the whole nation. The exploitation of children in mills and factories must end.

It would seem that all must be convinced by now that the only adequate recourse is to an amendment to the Federal constitution. The inhumanity, the injustice, the barbarity of child exploitation has come to be so generally understood that none dare uphold it in the open. The machinery of amending the Constitution should be set in motion without an instant's delay.

Concerning the League of Nations, Mr. Swoope said in part:

In spite of the overwhelming victory won by the Republicans in 1920, largely on an anti-league platform and in spite of the recent victory of the Democratic Senator from Missouri, Mr. Reed, who made his campaign at the Democratic primaries on his opposition to the League of Nations, and won by a great majority, the Democratic State candidates and the candidates for United States Senator and Congress are advocating the Wilson policy of America participating in the League of Nations. It is, therefore, in order for us Republican candidates for Congress to discuss this issue.

For the sake of the League of Nations covenant, which was written and prepared by General Smuts of the British army, the followers of Wilson are willing to surrender to Great Britain, France, Italy and Japan two-thirds of the world, and promise to assist them in their exploitation of the weak countries and the backward peoples. There are so many objections to the Smuts-Wilson covenant that it would not be possible in the time allotted to me for me to discuss more than one or two of them.

With 30 wars going on in the world at the present time, and the League council unable to prevent any one of these wars, it would seem we had better beat our swords into convertible plowshares. The League has been in existence in Europe for almost three years and it does not function. In support of this assertion note the following facts: The rattle of musketry echoes among the cliffs and gorges of the northern border of India; British troops and Persian irregulars carry on a species of warfare that flourishes when the weather permits; civil war rages in unhappy Ireland; Japan and Bolshevism are sparring for minor advantages; the Turks have resumed the massacre of the Armenians; Russia and Turkey have formed an alliance to war against civilized Europe, and Greece began war with the Turks with the sanction of the supreme council of the League, and has been vanquished after a long and expensive campaign, surrendering an army of 150,000 men and losing millions of dollars' worth of ammunition, guns and supplies.

Premier Lloyd George said in April, 1920, that the League covenant was only inserted in the Versailles treaty out of defference to President Wilson, and now that Mr. Wilson was to all intents and purposes out of European politics, the time had come to clear the decks of impracticability and openly declare that the League of Nations is an "impossible dream."

AT THE DRIGGS THEATRE TONIGHT

Sex is the only thing that has outlived convention. "Why Wives Go Wrong" is a daring stage play that solves a rather delicate problem in a surprising way, and will be the attraction at the Driggs theatre tonight.

Woman has influenced history since the beginning of time. She has inspired song, verse, architecture, war, peace, jealousy and love. She has builded up cities and wrecked nations. She has been the predominant influence in all things since the prehistoric age of men, since time immemorable. It has always been an open season for girls. Now, with petting parties, joy rides and flapperdom, woman is at the most dangerous crisis of her existence.

Moral wrecks are about us everywhere; the battle of the sexes has never been so ferocious. "Why Wives Go Wrong" is a stage play for married women and those who are approaching adultism. Because of its frankness and daring, we are asking you to leave the little folks at home.

WOODLAND M. E. CHURCH NEWS

At a congregational meeting of members recently held Woodland M. E. church membership voted to repair and refurnish the interior of the church building. The lighting system will also be altered so as to provide more light which is greatly needed. Included in the improvements estimated upon are, new pews, pulpit furniture, frescoed walls, repainted woodwork, new carpets. The basement of the church has been recently renovated and this will provide the room for the holding of social gatherings of which several have already been planned. Saturday evening of the 28th the Woodland Cornet band will hold a chicken and waffle supper there. The Philathea Class of the Sabbath School have already begun for a monster bazaar to be held the first week of December. Dr. Collins o Curwensville will lecture for the Young Men's Bible Class on the eve off November 16th. Work has also been begun at the parsonage for the installing of a water system and bath. Plans for the Sabbath day services of the 22nd have been completed and at the evening service Dr. E. A. Pyles, Supt. of the Williamsport District will preach.

A Bit of Poetry.

Whatever your occupation may be, and however crowded your hours with affairs, don't fail to secure at least a few minutes every day for the refreshment of your inner life with a bit of poetry.—Prof. Charles Eliott Norton.

Soap.

Pliny claims soap was an invention of the Gauls, but the answer to this question is not known. Soap is mentioned in the Bible, but the Hebrew "borith" (soap) is merely a general term for cleansing substance. Manufacture of soap on a large scale first began in London in 1524.

Fastest Four-Footed Animal.

VOLUME XVI | THE CLEARFIELD PROGRESS, CLEARFIELD, PA., FRIDAY EVENING, OCTOBER 20, 1922. | NUMBER 247

Great Haul Made In Upper End of County By 'Dry' Officers

ALVIN M. OWFLY NEW COMMANDER OF AMERICAN LEGION

New Orleans, La., Oct. 20.—Alvin M. Owfley was today elected national commander of the American Legion. Of the 1030 votes cast, Major Owfley received 574, more than double that of both his leading opponents. The vote was: Owfley 574; Deegan, of New York, 251; Col. Joe Thompson, of Pennsylvania, 205.

A combination of Western and Southern States put Owfley across as against Deegan. Col. Joe's supporters stood by him to the last.

Owfley was a major in the 36th Division. He is a Texan, where he recruited his own company to enter the world war.

Fine Musical Treat For Clearfielders In Visit Of Consistory Choir

What will, in all probability, be one of the finest musical treats that has ever been presented in this city will be when Director Frederick Manson holds up his baton for the opening number by his Consistory Choir which is being brought here by local members of the Williamsport Consistory.

This choir is one of the most wonderful [illegible] organizations in this State. Used as a part of the ritualistic work in the Williamsport Consistory of the A. A. S. R. its fame has gone far beyond the confines of the lodgeroom and is now in great demand all thru the eastern section of the country for such programs as will be rendered at the Trinity church in this city on next Tuesday evening Oct. 24th at 7:45. The entire seating capacity of the church will be thrown open to the public. The choir is brought here by the local members of the Williamsport consistory purely for the purpose of [illegible] Clearfield people this wonderful treat and the coming will be doubly welcome owing to the fact that all expenses are being borne by local members of the fraternity and that the church will be thrown open to everybody without admission charge or collection of any kind. The choir is composed of thirty trained male voices and has been under the directorship of Mr. Manson for over ten years. The program which will be rendered upon the appearance of the choir here follows:

PATRIOTIC NUMBERS
The Messiah of Nations .....Sousa
To Thee, O Country .....Eichberg

PART SONGS
At Dawning ..... Cadman
Memories .....Cadman
Dreaming Alone in the Twilight Moore

Baritone Solo Selected
Mr. W. Clyde Harer

ANTHEMS
Hark, Hark My Soul .....Schelly
Solo by Mr. A. M. Hoagland
Gloria from the Twelfth Mass Mozart

Quartet Selected

DEGREE
Light, Beautiful Light .....Gerrish
Enright's Chorus .....Protheroe

Bass Solo Selected
Mr. Willilam E. Parson

OLD FAVORITES
Love's Old Sweet Song
Loch Lomond
Arranged for Male Voices.

CHORUS
Viking's Song ..Coleridge-Taylor

Following the recital there will be a reception given to Director Manson and his Choir at the Fraternity Club in the Keystone Building to which all members of the Masonic fraternity and their ladies in this section have been invited.

Mrs. Carrie McGaughey, Mrs. A. M. Liveright and Miss Beulah McCardel attended the luncheon giv-

AMERICAN LEGION BAND MEMBERS

Please report at the room promptly tonight at 7:30 for the purpose of playing at the Democratic Rally.

SWOOPE MAKES A GREAT SPEECH AT BRADFORD MEET

Tells League of Women Voters That New Legislation Must Protect Child Labor.

OPPOSES LEAGUE

(From the Bradford Star.)

William I. Swoope, Republican candidate for Congress, addressed the local branch of the League of Women Voters at the Board of Commerce rooms last evening. The large sized crowd of women assembled to hear the candidate discuss the issues of the coming campaign. Mr. Swoope is an excellent speaker and in an entertaining manner explained the outstanding features of the Republican platform. He reaffirmed his adherence to the amendment to the federal constitution giving Congress the power to regulate child labor.

He said in part:

Te recent decision of the Supreme Court of the United States declaring the act of Congress regulating child labor unconstitutional has brought to the attention of all good citizens the immediate necessity of adopting a twentieth amendment to the Constitution to authorize Congress to regulate this matter. The Republican party declared in its pre-election platform that "if the present law be found unconstitutional or ineffective, we shall seek other means to enable Congress to prevent the evils of child labor." It is an industrial impossibility for any one State, or any group of States, to maintain high industrial standards in direct and open competition with other States that have no such high standards. Therefore, there is a necessity for a Federal law.

One million children from the ages of ten to fifteen yeaers, are now at work in the United States.

Statistical figures are cold, uninteresting things, so let us, says a well-known educator, put the matter in another way—

"One million underprivileged children, destined to grow to be underprivileged men and women, to recruit the ranks of the half-witted, the gunmen, the incompetent and the criminal.

One million voters less capable of exercising the great function of the ballot because of poor equipment for reasoning power and decision.

One million dwarfed intellects to be the easy prey of prejudice, class consciousness and hatreds. Undersized minds that will fatten the purses of the crafty and the conscienceless.

One million prospects for the I. W. W.'s, the Boishevki, and all the other exponents of half-baked theories of government.

One million people whose darkened minds will inevitably pull down the standard of art, music, drama, and life in all its ramifications.

One million children whose pitiable plight shames the boasted wisdom and statesmanship of the United States of America.

One million little folk, at heart innocent of all these and other dire portents for their country, with a real and just grevance against the one hundred million who permit this [illegible] folly of child labor to

(Continued on Page Seven)

BLAIN CITY, COALPORT, MAHAFFEY AND GREENWOOD TOWNSHIP GIVE UP IMMENSE QUANTITIES OF "HOOTCH"

Curry Run Distillery Most Complete Plant Officers of Long Experience Ever Saw; Was In Abandoned Farmhouse 2 Miles From Road.

PROTECTED BY RIFLE IN "CROW'S NEST"

About a half dozen people in the Blaine City, Coalport and Mahaffey regions will bear testimony today that prohibition laws are being enforced, that "Sky Pilot" Davis has a two-fisted enforcement crew who can smell hootch for miles; and those thirsty individuals who depended on E. A. Graham of Mahaffey, George Spangle of Blaine City, Frank Malco and Mrs. Theophilas Cenaski of the same place and Sero Bankio of Coalport are going to be deprived of a source of supply for a long time to come.

Judging from the haul made by an enforcement crew under Group Head O. R. Stiffler and Lieut. C. T. Sprague yesterday in a whirlwind tour of the upper end of the county the aforesaid individuals must have had a monopoly on the moonshine and high powered wine trade in that vicinity as the capacity of the stills confiscated and the stocks on hand and in process of manufacture would make the Overholt Distillery a mere piker. Here is the list of the goods destroyed and confiscated in a short space of six hours:

2 25-gal. stills.
1 15-gal. still.
160 gallons mash.
8 bbl. wine.
4 tons California grapes.
190 bottles Jamaica ginger.
1 10-gal. keg moonshine.
2 1-gal. jugs moonshine.
34 pints moonshine.
984 lbs. brown sugar.
288 empty pints.
3 5-gal. crocks.
1 38-55 Marlin rifle, loaded.
1 bottle-capping machine.
25 gal. cherry mash.
1 bbl. fermented cider.

The First Haul.

Now wouldn't that make you thirsty? It's too late now but here is where you might have gotten it. At least this is what the dry squad found when they swooped down on Blaine City yesterday morning about the time trade was getting good. The first place to be visited was a house occupied by Mrs. Theophilas Cenaski, who had Frank Malco as a distiller and dispenser. A beautiful shiny 25-gallon capacity still had just been loaded and was in operation with Malco proudly looking on. Thirty-five gallons of mash were ready for reloading. The lady and her man Friday were marched to 'Squise Askew at Blaine City where they were held under $1,000 bail to appear at December court.

An Old-Fashioned Hotel.

From the Malco distillery the crew visited the Blaine City Hotel conducted by George Spangle. Here the raiders found a ten-gallon keg of moonshine, a quart and a pint. Spangle and his clerk, Thos. M. Cavey, were glad to give bail in similar amounts to get out of a ride to Sheriff Lowell's apartments at Clearfield. Spangle was ill in bed and told the raiders in not too friendly a manner that he had been tipped off from the town the raiders started from that they were coming but did not have time to hide his stock.

On To Coalport.

Moving down to the town of Coalport the "hootch hound" in the pilot car pointed towards the domicile of one, Sero Bankio, whose praise and name are sung far and wide as a wine maker and vendor. Mr. Bankio had eight barrels of wine already made up, three kinds of it, so that he would be able to cater to all classes of trade, and as though anticipating a great holiday trade he had four tons of California grapes in an adjoining room, going through his fruit press. An invoice found told the story of the extent of his operations. Bankio likewise will be down to see Judge Bell in December. The stocks were put under seal for later disposition.

A Prize Find.

It was not, however, until the party reached Mahaffey that things began to get interesting. Possessing a search warrant for the restaurant of E. A. Graham, which is directly back of the N. Y. C. depot, the squad entered both front and rear doors and made a thorough search. In the stock room upstairs 34 pints, 2 one-gallon jugs and 190 bottles of Jamaica ginger gave mute evidence of the source of supply for thirsty travellers. The law-abiding residents of Mahaffey upon learning that a raiding party was in town quickly assured the offirers their visit was appreciated and volunteered a great deal of information which led to developments which uncovered the plant from which Graham stocked his house and which surely had the capacity to keep all of Chest Creek moist through the longest drought. Graham was taken before 'Squire McQuown of Mahaffey, where for $1,000 bail posted he was temporarily released.

Departing from Mahaffey, the party headed down the river for Clearfied, satisfied that a good day's work had been done, but at a point near Curry Run the "hootch hound" sniffed and barked, then sprang from the rapid going car. It is the policy of the enforcement officers never to overlook a scent, so the cars were headed up the old Lee road for a distance of a couple miles to what is known as the old Lee farm in Greenwood township. Here the officers found an old four-room farm house, abandoned as far as agricultural pursuits are concerned, but a beehive of activity for distilling purposes. This house is located in a hollow and is obscured from the view of all mankind by reason of its location and the wooded lands surrounding it. A nice stream of pure spring water for use in manufacturing ran right alongside the house. Indeed it was a perfect site. The farm now is the property of E. A. Graham, the Mahaffey restaurant man, who was re-arrested and admitted his part in the violations.

In one room was a 25-gallon and a 15-gallon still. In another there were 125 gallons of grain mash, a 25-gallon keg of cherry mash. In still another, the packing room, was

(Continued on Page 4).

ARREST IS AGAIN PROMISED IN HALL-MILLS MURDER CASE

New Brunswick, N. J., Oct. 20.—Hall-Mills murder mystery has been solved. The murderer is virtually arrested and has been under constant surveillance for several days.

County Prosecutor Strickler would not confirm the report that emanated from the court house here but there is less feverish activity around the Court House today than there has been since the finding of the bodies and the search for the murderer began.

Both Prosecutor Strickler's and Prosecutor Beekman's attitude was said to bear out the information and the apparent sureness of the county officials and the state police further bore out the probability that an arrest was but a matter of hours.

New Brunswick, Oct. 20.—Prosecutor Beekman and Stickler are apparently at loggerheads over the latest developments. Beekman is urging Strickler to make an arrest but Strickler does not believe the time opportune for taking the suspect into custody.

REPUBLICAN PARTY CHAIRMEN MAKE MANY CHANGES IN GOVERNING RULES

Republican precinct, ward, township, borough and city chairmen constituting the Republican organization of Clearfield county, met in executive session last evening at the Dimeling hotel at which time a banquet was enjoyed and epoch-making changes were made in the party rules. A full report of the proceedings will appear in tomorrow's Progress.

ATTORNEY UREY AN ABLE EXPONENT OF TAXING PROBLEMS

Borough Solicitor John M. Urey was a guest of the Clearfield Rotary Club at its regular meeting at the Hotel Jordan last evening and after the dinner gave the assembled Rotarians a highly interesting talk on "Tax Assessment Equalization." Mr. Urey is an authority on taxation and by reason of the position which he has held in the borough government for the past ten or twelve years is as familiar with the local situation, with its manifold inequalities, as any man in the town. His remarks were not only interesting but instructive as well and gave his hearers new ideas on the problem which concerns us all and which an effort will be made to solve at the coming session of the Pennsylvania legislature by entirely changing the manner of tax assessments.

Miss Jean Harris sang a couple of very enjoyable solos during the meeting.

Charles A. Steele, of Franklin, Pa. a guest of P. T. Davis favored the Rotarians with a brief little talk and pleasing recitation.

BALDWIN WORKS AT PHILADELPHIA HAS GREAT PROSPERITY

Philadelphia, Pa., Oct. 20. (U. P.)—The Baldwin Locomotive works is having the greatest prosperity since the slump began in 1920.

There are now 12,000 men at work, three eight-hour shifts, six days a week, and the force will soon be increased to 18,000 men, it is announced.

This shows the general trend of business, for railways do not place large orders for locomotives when times are very dull. Many of the roads who have placed big orders with the Baldwin people are demanding that their engines be rushed in anticipation of new business at once.

Besides large domestic orders from Pennsylvania, Erie, Baltimore and Ohio, Chicago, Milwaukee and St. Paul and others, the Baldwin has orders from foreign roads and governments for more than 50 locomotives.

The largest engine ever made at the Baldwin works was recently turned over to the Erie. It had sixteen driving wheels each 63 inches in diameter, developed tractive force of 160,000 pounds and weighed 860,350 pounds.

MOTHER'S FUND IS GREAT HELP TO OVER 2,000 STATE WOMEN

Scranton, Pa., Oct. 20.—(U. P.)—The Mothers' Assistance Fund is at present caring for 2,462 families in Pennsylvania, including 9,000 children, according to Miss Mary F. Bogue, supervisor of the fund in this state.

Rebekkahs Celebrate With Hallowe'en Party In Odd Fellows Hall

A particularly enjoyable hallowe'en party was given by the Daughters of Rebekkah in the rooms of Clearfield Lodge of Odd Fellows last evening. The two hundred or more participants were suitably and picturesquely masked and with the commodious social rooms darkened and tastefully decorated with eerie looking old witches and other hallow e'en decorations made up a scene impressively and singularly beautiful.

When the proper time arrived Miss Marion Rook took charge as Chairman and capably directed a highly pleasing program.

One of the Chief features of the program was the fancy whistling of the Clyde Brothers, DuBois artists, one of whom also favored the assemblage with several side-splitting Italian dialect stories.

Mrs. Cal C. Johnson added anew to her reputation as an elocutionist, vocalist and all-around entertainer by her recital of "A Dutchman's Answer," which she followed by singing that old-time but ever popular song entitled "Oh, My Little Darling."

Miss Kathleen Tozier also sang a very pretty solo, while Miss Anna Way, who accompanied the singers also rendered a pleasing piano solo.

Delectable refreshments added "the fillin," necessary to a complete program and brought to an end a perfect evening.

CLAIMS WIFE GAVE BIRTH TO TWINS, THEN KILLED THEM

Hammond, Ind., Oct. 19.—Frank McNally, middle aged factory worker who accuses his wife of murdering twin babies born to her, asserted at the preliminary hearing today that Mrs. McNally took the children to a hospital in Chicago last January returned with two dolls which she substituted.

Mrs. McNally, who claims that the twins never were born, and that tricked her husband by using dummies to satisfy him, was unperturbed by her husbands' testimony.

Attorneys for the defense objected to his testimony as soon as he was placed on the stand. After long arguments Judge Cleveland ruled that McNally might tell of events following the time he says the babies were born, but will not be allowed to testify to events preceding that event.

Miss Catherine Griffith, 17 year old daughter of the nurse who attended Mrs. McNally, was an important witness today. She said she learned that Mrs. McNally was to have become a mother in the summer of 1921 Pictures, she said she had taken of Mrs. McNally at the beach last summer, were demanded by attorneys for the defense but were refused.

She asserted that after the time McNally said the twins were born she saw he babies in bed alixe and kicking and also saw one of the babies nursing Later she said she carried one of the babies on the street, but would not swear that it was alive.

Merrit Metz, a real estate man, said he had seen Mrs. McNally early last December and she was approaching motherhood. Mrs. Anna Hartman, a neighbor, also testified that she had seen Mrs. McNally in December and she was soon to become a mother.

It was expected that when McNally concludes his testimony, the midwiffe who McNally said attended his wife, will be summoned.

Hammond, Ind., Oct. 19.—Apparently enjoying humorous aspects of the proceedings as much as spectators who crowded the courtroom, Mrs Hazel McNally, on trial charged with

CLEARFIELD, ELK AND CAMERON ROAD BOOSTERS READY

Permanent Organization Made; Legislation to Get Highway Prepared and Fight Is On.

IS SHORTER ROUTE

The meeting for permanent organization of the Clearfield-Elk-Cameron Improved Road Association was held at St. Mary's, Elk county yesterday and the organization of business men from the counties named which has for its object the establishing of an improved road between Clearfield and Emporium, was finally and permanently established.

The meeting which was held in the parlors of the St. Mary's Elk Club was attended by two score or more of those interested in this route, which means so much to the northern end of the State, in that it will give a short cut outlet to the east to a section practically cut off from central and eastern Pennsylvania, except they travel a long and roundabout course to reach those sections..

The meeting was called to order by President B. C. Mulhearn and after the preliminaries had been disposed of Hon. Josiah Howard, of Emporium, established the permanency of the organization by moving that an Executive Committee be named consisting of the general chairman and the Chairmen and Secretaries of each of thethree counties in the organization.

The county chairmen then named the six members of their organizations, which they had been empowered to choose to make up the different county organizations. Chairmman A. E. Leitzinger of Clearfield County, announced that the following would make up the committee from this county: A. E. Leizinger, chairman; L. C. Norris, Secreary; John C. Forsyth, Charles T. Kurtz, A. H. Woodward, A. D. Bigler and Dr. Frantz.

Chairman A. H. Woodward of the Committee appointed to draft suitable legislation covering the project, presented the following Act of Assembly, providing for the proposed route and which was adopted and will be introduced into the coming legislature:

A SUPPLEMENT

To an act entitled, "An Act establishing certain public roads as State Highways, and providing for their construction and maintenance at the expense of the Commonwealth," approved the twenty-second day of July one thousand nine hundred and thirteen, by adding thereto an additional route to be known as route three hundred and seventy-five, to connect the county seats of Clearfield and Cameron Counties.

Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania in

(Continued on Page 4).

ROOSTER'S CROWING SHOWED WAY OUT OF DARK DISMAL SWAMP

Stroudsburg, Pa., Oct. 20. (U. P.)—William Warner owes his life to a rooster that crowed.

Warner recently became lost in a cranberry swamp near Tannersville. After wandering for hours he was caught in the boggy land up to his waist.

Fighting for hours to release himself he finally succeeded in dragging himself to firm land but was lost and afraid to move. A rooster crowed. Warner followed the sound until he reached a farmhouse and was given medical attention.

The tongue of the wise useth knowledge aright but the mouth of fools poureth out foolishness.—Solomon.

Grieving Cow Adopts Eight Lambs.

The maternal affection of a cow at the Morton Sheep company's ranch, near Douglas, Wyo., has been satisfied by the adoption of eight motherless lambs. The cow grieved when she lost her calf, but her new family appears to please her greatly.

PAIN GONE! RUB SORE, RHEUMATIC ACHING JOINTS

Stop "dosing" rheumatism.

It's pain only. St. Jacobs Oil will stop any pain, and not one rheumatism case in fifty requires internal treatment. Rub soothing, penetrating St. Jacobs Oil right on the tender spot, and by the time you say Jack Robinson—out comes the rheumatic pain and distress. St. Jacobs Oil is a harmless rheumatism liniment which never disappoints, and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints muscles and bones; stops sciatica, lumbago, backache and neuralgia.

Limber up! Get a small trial bottle of old time, honest St. Jacobs Oil from any drug store, and in a moment you'll be free from pains, aches and stiffness. Don't suffer. Rub rheumatism away.

McCARTY'S SUNDAY DELIVERIES

The office at the plant will be open until 9 P. M. every Saturday evening and on Sundays from 9 to 10 in the morning for the booking of Sunday dinner ice cream.

No orders will be taken after 10 A. M. Sunday for delivery in time for dinner.

If You Serve McCarty's Ice Cream, You Serve Something Extra Fine.

McCARTY'S

CLAIMS WIFE GAVE

(Continued From Page One)

infanticide, waited today for the prosecution to present its star witness, her husband and accuser, who saw the twins she disposed of last spring were actual babies and not dolls, as she claims.

Eleven witnesses testified yesterday, 10 that the twins were dolls and one that they lived and breathed. Mrs. McNally listened with seeming levity and unconcern to their testimony as to how she carefully guarded "the twins" from the prying of curious relatives and neighbors. She frequently joined in the laughter which the testimony brought from the crowded courtroom.

The defense indicated its intention to put Mrs. McNally on the stand to repeat her version—a story of a conspiracy between herself and her husband to work a maternity hoax so that McNally's ambition to be known as a father might be appeased. According to Mrs. McNally an operation two years previous to her marriage rendered her incapable of child birth.

All witnesses said that Mrs. McNally kept the faces of the twins covered up.

No trace of the missing twins whether dolls or babies, has been found. Mrs. McNally said she destroyed them last April, telling the inquisitive that she had sent them to Chicago.

300 ARE BURIED IN POTTERS FIELD OF PHILA. EACH YEAR

Philadelphia, Pa., Oct. 20.—(U. P.)—More than 300 unidentified and unclaimed bodies are buried in Potter's field here each year, Joseph Shay, Superintendent of the cities burial ground, states.

The bodies are kept in the cemetery for two years and then if no one claims them, they are exhumed and cremated, Shay said.

Photographs of each body buried are kept and it is not uncommon to exhume a body several times a year for identification, only to find that the persons were deceived by the picture. Most efforts to identify the bodies are due to the desire to collect insurance money, he said. The number of unclaimed bodies each year are about equally divided between the sexes the records show.

BEAVERS CUT OFF WATER SUPPLY FROM HIS GRIST MILL

Bloomsburg, Pa., Oct. 20.—(U. P.) Unable to operate his grist mill because his water supply was short, Clinton Cole investigated the upper section of West Creek.

Twenty miles up the little stream of water a colony of beavers were damming up the creek. In an effort to keep a sufficient depth of water in the mill dam to suit their fancy they closed off the water leading to the mill race.

INDIANS TO BATTLE FOR LANDS AROUND OLD N. Y. RESERVE

Oneida, N. Y., Oct. 20.—(United Press)—Legal battles will be begun shortly to recover for the "Six Nations" of Indians more than 6,000,000 acres of land in the heart of New York state valued at more than $2,000,000,000.

Oneida Indians at a meeting here appointed a committee of 22 of their number to raise the money needed for the fight and for further investigation of claims. Nelson Metoxea is chairman and Mrs. Laura Cornelia Kellogg, secretary. The committee will work with those appointed from other tribes.

Mrs. Kellogg and Amos Baird represented the Oneidas in an investigation conducted in the east. They claimed at the meeting that if the land is recovered, it will be divided among approximately 50,000 persons descendants of the "Six Nations."

The claim is based on the treaty of 1784 in which the United States government ceded 6,000,000 acres of land to the Six Nations. There is nothing in the treaty, however, preventing Indians from selling the land. In a short time much of it had been sold to the state.

Indians moved west and north, some to Canada, others to Wisconsin and Oklahoma.

In 1794 the government amended the treaty by a clause which stated it was the original purpose of the government to provide that none of the land ceded in the treaty of 1784 could be sold except by the Six Nations as a unit. Indians therefore are attempting to recover the land alleged to have been illegally sold to New York State.

The Indians are being assisted in their fight by E. A. Everett, chairman of the New York state Indian commission. The fight will be carried to the New York state and Federal government.

FEW FOLKS HAVE GRAY HAIR NOW

Well-Known local druggist says everybody is using old-time recipe of Sage Tea and Sulphur

Hair that loses its color and lustre or when it fades, turns gray, dull and lifeless, is caused by a lack of Sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulpuhr Compound," which darkens the hair so naturally and evenly that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulpuhr Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

Hallowe'en Fixin's

The clever little things that we have for your celebration of Hallowe'en are yet here aplenty and you'll find that your party will be a lot nicer if you have the proper decorations.

Narcissus Bulbs

We are showing, and selling a lot of them, too, fancy boxes of those healthy narcissus bulbs that you want to start now to have ready in time for Christmas. We have them all ready, bowl and all.

Kurtz Stationery Store

If other stores call you a "Crank" ----- we want to meet you!

If you are fussy about your clothes—particular about your hats—if you have more trouble with shirts than Sousa has medals and if you take more time to buy a Union Suit than most men take to buy a house and lot—

All the more we went to meet you.

It's our experience that the man who is hard to win is also hard to take away!

Come in, particular men—take as many pains as you like—you can't give us one.

ODDS AND ENDS AND THINGS

By J. D. C.

A referendum on Prohibition, to record the opinions of at least 10,000,000 American citizens throughout the country, and if possible, twice that number, will be undertaken by the National Liberal Alliance and completed in four months. A beginning has been made, it became known for votes of 3,000,000 have already been recorded.

The votes in hand, obtained mostly in New York and in the New England States, stand ten to one in favor of a modification of the Volstead Act, according to Miss Helen L. Baughan, director of the Women's Division of the Alliance, who has opened headquarters in the Hotel Astor and who began taking votes Tuesday last. That ratio, incidentally, is similar to one obtained from nearly 100,000 voters in New York a year ago last July—93,720 for modification and 1,978 against.

Miss Baughan, a newspaper woman from Providence, will take votes in New York until election day, with aid of 500 women assistants to be recruited during the next two days. Ballot boxes will be placed all over the city.

To Escape Knife of Divorce.

A chap before marriage does a lot of spooning, but after marriage it's a case of fork over.—Boston Transcript

First Patent for Plow.

The first patent for a plow is said to have been obtained by Joseph Foljambe in 1730. His invention was closely followed by other plow makers, and he struck the same practical idea that has been so elaborated in the soil-turning instrument of today.

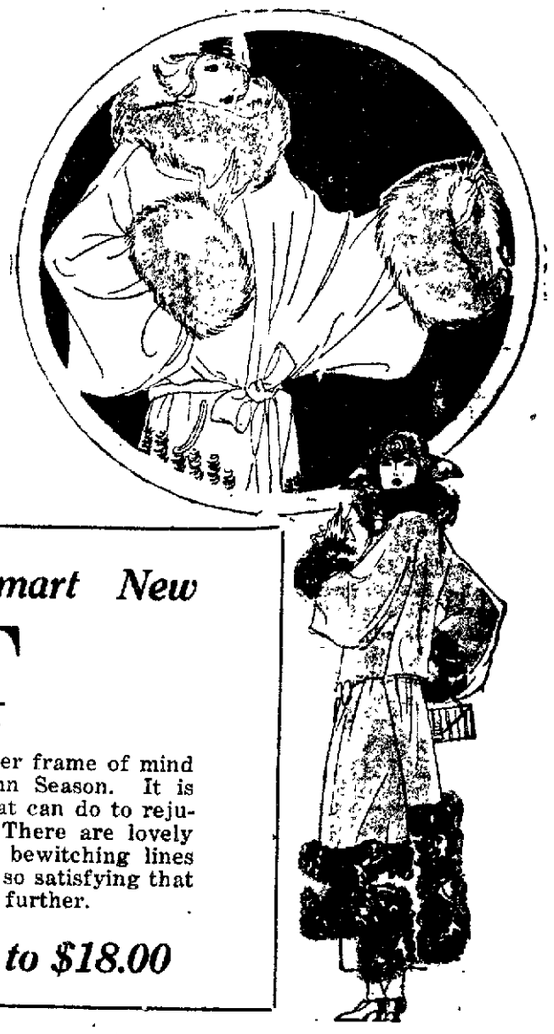
Fall Ready-to-Wear Shows Countless New Style Movements

Countless new movements have been inaugurated in styles for women, and each has proved more acceptable than the last. There is still further departure from the old paths in respect to price, perhaps the most acceptable of all. Beautiful styles for every age—all at prices lower than those obtaining for garments of the same quality a year ago—are indeed the bearers of good tidings to the modern woman, and Leitzinger's take pleasure in furthering the new arrangement with a large and unusually comprehensive array of Frocks, Coats, Suits, Hats, Furs and other apparel for women.



First of All Is a Smart New

HAT

If you want to be in the proper frame of mind during this delightful Autumn Season. It is surprising what one pretty Hat can do to rejuvenate an entire wardrobe. There are lovely new Hats on display her of bewitching lines and ravishing color, and style so satisfying that few women will care to look further.

Priced from $2.50 to $18.00

-:- SNUG KNIT UNDERWEAR -:-

Combines Quality With Comfort and Attractiveness

The question of Knit Underwear in a heavier weight than summer has demanded, is all-important, now that brisk fall weather is here. These early fall days in the Underwear Section are splendid ones to examine and purchase the new knit undergarments. There are many interesting new details of trimming; some new weights. As you know, we carry only those well-known and thoroughly tested makes that stand for quality—the **Munsingwear** and **Athena** Brands, head the list of our nationally known makes of Women's and Children's Underwear.

CLEARFIELD, ELK

(Continued From Page One.)

Legislature assembled and it is hereby enacted by authority of same:

ection 1. That the following public road or highway leading from Clearfield, the county seat of Clearfield County to Emporium, the county seat of Cameron County be and the same is hereby adopted as a State Highway and shall hereafter be constructed and maintained at the sole expense of the Commonwealth, under the provisions of present or future laws governing main State Highways; that is to say:

Route Three Hundred and Seventy Five—A certain public road commencing at the Borough line of Clearfield, at a point near the Clearfield Hospital, thence by way of Kennedy Park and the State Forestry Nursery, to Penfield; thence to a point on the dividing line between Clearfield and Elk Counties, near the village of Tyler, thence by way of Force, and Weedville and Byrnedale to St. Mary's and thence by State Highway Route No. ninety-nine to Emporium.

Section 2. The cost and expense of the maintenance, construction, reconstruction and improvement of the highway herein described shall be paid out of any moneys appropriated to the State Highway Department for the maintenance, construction, reconstruction or improvement of State Highways.

The Chairman was then authorized to appoint a Legislative committee of three members from each county, which committee will be expected to assist in having the proposed law enacted by the Legislature. Each County Chairman will name the three men from his county and they will be appointed by the general chairman when the names are submitted to him.

A Committee on Publicity to be made up of the editors of all the news papers in the three counties was then named on motion of Mayor Thompson of St. Mary's.

The matter of a name for the proposed route was then discussed at length and it was decided to ask for suggestions from the people of each of the three counties, a selection to be made from the names presented by the Executive Committee. Clearfield county people desiring to compete in this naming should submit the name they would suggest to Secretry L. C. Norris, Clearfield.

The distances to the New York State line by the proposed short route are:

Clearfield to St. Mary's 36.5 miles
St. Marys to Emporium 22 miles.
Emporium to Port Alleganey 25 miles (via Sizerville and Keating Summit)
Port Alleganey to Eldred 19 miles (via Larrabee.)

Those attending the meeting from Clearfield were: A. E. Leitzinger, L. C. Norris, A. H. Woodward, A. D. Biggler, J. F. Leitzinger, William Leitzinger, Charles Waple and J. D. Connelly.

Blain City, Coalport

(Continued From Page One.)

a patent bottle capper, 288 empty pints, 3 5-gallon crocks, 1 barrel fermented cider, over 900 pounds of sugar. The other room was the living quarter with cot and chair where the hard-working shiner could rest after his labors.

Meant Business.

Through the roof projected a trap door and a ladder. Curiosity prompted one of the officers to crawl the ladder and imagine his surprise when at the top it landed him in a comfortably constructed "crow's nest" built in the top of a giant oak well covered with foliage in such a manner that it was not visible from any point on the ground at or far away from the house.

A rustic seat was provided, also footrests to keep the weary outlook from becoming legweary. Across the seat was a 38-55 Marlin rifle loaded with six death-dealing shells with several dozen cartridges alongside, thus providing for a long seige against law and order if the distillers found it necessary. The officers made short work of the whole plant and today it has the appearance of a Hun destroyed French chateau.

Yesterday's coup was the work of Group Head O. R. Stiffler and Lieutenant C. T. Sprague and their coworkers from the Punxy office, assisted by some local men drawn from surrounding towns. Both of the gentlemen, as the results show, are able and gentlemanly officials and the good people of the Mahaffey region were very favorably impressed by their efficient and unobtrusive methods. Mr. Stiffler stated, however, that in all his experience, even in the mountain fastnesses of Kentucky, he had never seen so complete a plant as the Curry Run distillery.

Squire Frisked.

The raids were not without the excitement and humor attendant to such happenings. Large crowds of people gathered at each place, while the thirsty shed tears and admirers of the coppersmith's art held their breath as stills were ruthlessly bent and broken. A touch of humor was added at Mahaffey when Squire James Brett sauntered into the restaurant not knowing Uncle Sam was in charge. One of Uncle's men was behind the bar. He assumed the role of clerk and genially asked the squire what he wanted. The squire replied "What yer got?" After countering back and forth the squire apparently thought it time to leave but was detained in the name of the law and also subjected to the humiliation of having his hunting coat searched. An almost empty half pint was found in the game compartment. The new clerk did not make a refill but what he did do was to give the squire a very uncomfortable five minute lecture on his conduct as a minion of the law.

ADDITIONAL GAME PROTECTORS ARE ADDED TO THE FORCE

Harrisburg, Pa., Oct. 20.—(U. P.)—Many assistant game protectors have been put on to curb the activities of these furtive hunters who try to skim the cream of the fall hunting by beginning before the opening of the season, Secretary Seth Gordon of the Game Commission said today.

Every effort will be made to prevent pre-season hunting and to apprehend those guilty of "jumping the gun," Gordon declared. Numerous extra assistants have been commissioned for temporary duty and already many law breakers have been caught.

Arrested

Have To Get Up Nights For Bladder Relief?

Try Simple Method This Dayton Man Reports Relieved Him Quickly.

Mr. Wm. P. Carpenter, 826 E. Second St., says in his own home paper, the Dayton Daily News: "My kidneys were so weak I had to get up nearly every night and I felt tired and worn out all the time. I noticed the urine was scanty and contained sediment. After taking a few Lithated Buchu (Keller formula) tablets my kidneys became strong and I felt fine in the morning. The tablets cost me very little. This price makes it possible to obtain the relief only several Lithated doses, which are so full for relief. You ought to know what anything like this remedy. Try a few doses for backache, scalding, scanty or high colored urine, and frequent desire at night.

You can get Lithated Buchu (Keller formula) at Stewart's Drug Store and drug stores everywhere, or write The Keller Laboratory, Mechanicsburg, O.

THREE TRAINMEN LOSE LIVES WHEN RAIL IS BROKEN

Williamsport, Pa., Oct. 20.—Three trainmen lost their lives in the wreck of the fast passenger train No. 12 near here at midnight last night. Five injured were brought here to a local hospital. There were no passengers among the casualty list.

The dead are:

Chas. Smudge, engineer; W. H. Smith, baggageman and R. S. Smith, mail clerk.

The train, one of the crack trains of the Wabash, was behind time, bound from St. Louis to New York when it ran into a broken rail. Railroad officials claimed that the track had been tampered with.

Following the wreck in which seven coaches went into the ditch, fire broke out among the wreckage hindering the work of rescue parties which were soon on the scene.

When You Sponge Clothes

The troublesome stains which sometimes appear on cloth after being sponged with gasoline or naphtha can be avoided by adding a couple of teaspoonfuls of table salt to the cleaning fluid.

It keeps the wife of a self made man busy mending alterations.—Boston Transcript.

A Successful Man

Among the notable professional men of this country who achieved great success along strictly legitimate lines was Dr. R. V. Pierce. Devoting his attention to the specialty of women's diseases, he became a recognized authority in that time.

Over [illegible] years ago the proprietary medicine to which was Pierce's Prescription, which has never been equaled for the weaknesses of women, Dr. Pierce, Buffalo, N. Y., long since found out what is naturally known as diseases. He learned all thru treating thousands of cases. The result of his studies was a medicine called Doctor Pierce's Favorite Prescription. This medicine is made of vegetable growths that nature freely intended for backache, headache, swelling, pain, and for the many ailments common to women, in all ages of life. Women who take this strengthening tonic now at home, Dr. Pierce's Favorite Prescription, they are getting a tonic women's tonic so good that druggists everywhere sell it in both tablet and liquid form.

Send 10c to Dr. Pierce's Invalids Hotel in Buffalo, N. Y., for trial pkg. Write for free medical advice.

MARYSVILLE MAN MAKES BRUTAL TRY TO KILL HIS BRIDE

Harrisburg, Pa., Oct. 20.—Wolfgang Rupley, aged 18, a resident of Marysville, near here, early today cut and lashed his wife's face and body with a knife then shot her with a shot gun. He ran from the house pursued by irate neighbors and a posse of police, state troopers and armed citizens took up the chase and within an hour captured the man. His wife, who is only seventeen, is not expected to live. The couple have been married only one month.

Too Game to Hunt.

In Scituate a fox which had been chased so much by the hunters proved too game for the sport. Closed in on from the coop, he was released again but ran up to one of the hunters who took pity on it and picked it up.—Boston Globe.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

Mrs. O. C. Livingston, of Clearfield, is visiting in the home of Mr. and Mrs. James C. Wright on South Filbert street.

Mrs. William Robinson is confined to her home by illness.

A very solemn and important ceremony was performed at the home of Mr. and Mrs. S. C. Russell yesterday afternoon when the Ganoe twins, Ruth and Rebecca, were christened. Mrs. Ganoe will go South shortly to remain for the winter.

The entertainment committee of the American Legion Auxiliary invites all members of the Auxiliary and those who are eligible for membership to the Legion rooms on Tuesday evening, October 24th, 1922, at 8 o'clock to attend a social evening. A good attendance should be present, as the ladies who comprise that organization certainly know how to entertain and make it pleasant for everybody.

Farmers hereabouts who made it a point to raise a large crop of potatoes are now disposing of the tubers at 75 cents per bushel. Many are anxious to dispose of their entire crop, as it is of their candid belief that potatoes this year will not prove good keepsrs through the winter or until the spring months. Buyers are getting their winter's supply and taking a chance on keeping them until used.

Parties who have been out on the mountains this week putting hunting camps in shape for the winter and the deer season, report that these animals are very plentifful and tame. A group of more than half a dozen approached within fifty yeards when one man was at work and gazed at him for almost ten minutes and then walked away as unconcerned as though they had not noticed his presence. Groups of deer from four to seven are seen frequently pasturing in fields and old orchards near the Greenwood camp. But wait until December when the season opens and a half thousand guns are belching fire and smoke in the mountains, where then will they be.

Jemmie Sheridan's smart little delivery truck was put out of commission yesterday by meeting with an accident.

MILLIONAIRE'S SON SHUNS MOTOR CARS AND LEISURE LIFE

Chicago, Oct. 19. (United Press.)—A chip off the old block is Joseph Block, who is going to follow his father's footsteps.

Block, 22, the son of L. E. Block, millionaire chairman of the board of directors of the Inland Steel Company, recently graduated from Cornell University.

He is now learning the steel business from the ground up.

For a month he was a member of the "puddlers gang" at the Inland Steel Company mill, at Chicago Heights. The "puddlers," by the way, have the hottest job in the mill. Stripped to the waist they direct the course of the huge billets of molten metal which come from the furnaces.

Block isn't going into the thing in a half-hearted way, either. He eats, lives and sleeps with his companions at the mill. He shares a room with a brother worker, carries a dinner pail and joins in the evening and morning march of the workers. He earns 355 cents an hour. Block is a favorite among the burly, muscular crew.

"The work is hard. To learn the business one must start at the bottom. You can't expect knowledge to be handed to you on a platter," Block said.

Block refused his parents' wish that he live at home and motor to and from the job.

"If I want to go home I'll use the street cars," he said.

STATE AND C. H. S. TO CLASH AFTER A FIVE YEAR PERIOD

By DICK LEIPOLD

Tomorrow afternoon, when Clearfield High and State College line up on the local field, it will mark the renewal of athletic relations after a lapse of five years. In the past the State schoolboys were one of the local institution's greatest rivals, every game between the two schools being close and chock full of thrills. This season the Centre county students will invade Clearfield with an aggregation reported to be well versed in all departments of the game.

Last Saturday Penn State High rambled roughly over the Cooper township eleven 51 to 0. A repertoire of trick plays and strong line play were features for the winners.

Hugo Bezdek, famous State College coach, has a son playing on the line of the school boys' machine. It is said that the high school outfit receives many valuable tips from the collegian tutors, who take an interest in the prep students' efforts.

C. H. S. Team Ready for Fray.

The Red and Black squad rounded out their practice last evening by running through an hour's signal drill. A chalk talk or "skull drill" was also given to the varsity players by Coaches Reed and Flegal.

Flegal also gave the first string men formation drill in the high school gym Thursday evening.

The players on the sick list are all in good shape, except Ganoe the big guard. Capt. Witherow voiced the sentiment of the entire team when, after finishing practice, he stated that every player on C. H. S.'s squad expected to give his best in Saturday's clash with the college town outfit, in order to show the students and townspeople what Clearfield High can do against a school of her own class.

"Pep" Meeting Tonight.

This evening at 8 o'clock there will be a "pep" meeting at the high school. Speeches, songs and school yells will be given by the students and others. Everyone is invited.

Some unusually interesting games will be staged tomorrow between the schools named below. Four of the teams appear on C. H. S's. schedule.

Huntingdon at Johnstown.
Altoona at Lock Haven.
Curwensville at Reynoldsville.
Emporium at DuBois.

LOOKOUT THERE, GIRLS!

There is only one thing as sure as taxes, and no claim as good for collection. Women can no longer hide behind an old law that places them in the class of imbeciles and cannot be jailed for debt. The State attorney general has ruled that a tax collector can levy on the clothing, jewelry, or any other personal property of a woman, and sell it for taxes. A woman without real estate would have but a few dollars taxes to pay and few of them would not have sufficient personal property to pay the tax and cost. Women who own real estate have abundance of security for their tax.—Centre Reporter.

SWOOPE MAKES

(Continued From Page One.)

continue."

If something cannot be done for these children, whose youth and strength are being drained away, the results in future years will be sad indeed for the whole nation. The exploitation of children in mills and factories must end.

It would seem that all must be convinced by now that the only adequate recourse is to an amendment to the Federal constitution. The inhumanity, the injustice, the barbarity of child exploitation has come to be so generally understood that none dare uphold it in the open. The machinery of amending the Constitution should be set in motion without an instant's delay.

Concerning the League of Nations, Mr. Swoope said in part:

In spite of the overwhelming victory won by the Republicans in 1920, largely on an anti-league platform and in spite of the recent victory of the Democratic Senator from Missouri, Mr. Reed, who made his campaign at the Democratic primaries on his opposition to the League of Nations, and won by a great majority, the Democratic State candidates and the candidates for United States Senator and Congress are advocating the Wilson policy of America participating in the League of Nations. It is, therefore, in order for us Republican candidates for Congress to discuss this issue.

For the sake of the League of Nations covenant, which was written and prepared by General Smuts of the British army, the followers of Wilson are willing to surrender to Great Britain, France, Italy and Japan two-thirds of the world, and promise to assist them in their exploitation of the weak countries and the backward peoples. There are so many objections to the Smuts-Wilson covenant that it would not be possible in the time allotted to me for me to discuss more than one or two of them.

With 30 wars going on in the world at the present time, and the League council unable to prevent any one of these wars, it would seem we had better beat our swords into convertible plowshares. The League has been in existence in Europe for almost three years and it does not function. In support of this assertion note the following facts: The rattle of musketry echoes among the cliffs and gorges of the northern border of India; British troops and Persian irregulars carry on a species of warfare that flourishes when the weather permits; civil war rages in unhappy Ireland; Japan and Bolshevism are sparring for minor advantages; the Turks have resumed the massacre of the Armenians; Russia and Turkey have formed an alliance to war against civilized Europe, and Greece began war with the Turks with the sanction of the supreme council of the League, and has been vanquished after a long and expensive campaign, surrendering an army of 150,000 men and losing millions of dollars' worth of ammunition, guns and supplies.

Premier Lloyd George said in April, 1920, that the League covenant was only inserted in the Versailles treaty out of defference to President Wilson, and now that Mr. Wilson was to all intents and purposes out of European politics, the time had come to clear the decks of impracticability and openly declare that the League of Nations is an "impossible dream."

AT THE DRIGGS THEATRE TONIGHT

Sex is the only thing that has outlived convention. "Why Wives Go Wrong" is a daring stage play that solves a rather delicate problem in a surprising way, and will be the attraction at the Driggs theatre tonight.

Woman has influenced history since the beginning of time. She has inspired song, verse, architecture, war, peace, jealousy and love. She has builded up cities and wrecked nations. She has been the predominant influence in all things since the prehistoric age of men, since time immemorable. It has always been an open season for girls. Now, with petting parties, joy rides and flapperdom, woman is at the most dangerous crisis of her existence.

Moral wrecks are about us everywhere; the battle of the sexes has never been so ferocious. "Why Wives Go Wrong" is a stage play for married women and those who are approaching adultism. Because of its frankness and daring, we are asking you to leave the little folks at home.

WOODLAND M. E. CHURCH NEWS

At a congregational meeting of members recently held Woodland M. E. church membership voted to repair and refurnish the interior of the church building. The lighting system will also be altered so as to provide more light which is greatly needed. Included in the improvements estimated upon are, new pews, pulpit furniture, frescoed walls, repainted woodwork, new carpets. The basement of the church has been recently renovated and this will provide the room for the holding of social gatherings of which several have already been planned. Saturday evening of the 28th the Woodland Cornet band will hold a chicken and waffle supper there. The Philathea Class of the Sabbath School have already begun for a monster bazaar to be held the first week of December. Dr. Collins o Curwensville will lecture for the Young Men's Bible Class on the eve off November 16th. Work has also been begun at the parsonage for the installing of a water system and bath. Plans for the Sabbath day services of the 22nd have been completed and at the evening service Dr. E. A. Pyles, Supt. of the Williamsport District will preach.

A Bit of Poetry.

Whatever your occupation may be, and however crowded your hours with affairs, don't fail to secure at least a few minutes every day for the refreshment of your inner life with a bit of poetry.—Prof. Charles Eliott Norton.

Soap.

Pliny claims soap was an invention of the Gauls, but the answer to this question is not known. Soap is mentioned in the Bible, but the Hebrew "borith" (soap) is merely a general term for cleansing substance. Manufacture of soap on a large scale first began in London in 1524.

Fastest Four-Footed Animal.

Many feel unequal to the daily task. They are prone to frequent colds or coughs, or are pale and thin. What is needful is rich, nourishing
Scott's Emulsion
of pure vitamine-bearing cod-liver oil, to help strengthen and build up the vital forces of the body. *Build up resistance daily with Scott's Emulsion!*
Scott & Bowne, Bloomfield, N.J. 22-23

Take Care Of Your Health
Now is the time of the year when you want to give your health the best of care. If you will start taking our mineral oil, it's imported, you'll find that the bugbear of constipation is overcome and you're feeling better.
